As part of the Townsends Inlet Civic Center's countdown to its 125th anniversary the Center for the first time in its rich and long history is now offering everyone an opportunity for you to have an engraved paver installed in front of the Townsends Inlet Civic Center located at 138 85st in Sea Isle. Whether you're an individual, family, organization, business, professional builder, real estate, resident or vacationer your contribution will greatly add to the beauty of the island and ensure that the TI Civic Center will be here for future generations to come, continuing to enhance and benefit the community as it has for over a hundred years.

Now is your chance to create a lasting impression and all proceeds will help to pay for the architect, blueprints, engineer and permits for the Center's new facade. We are so blessed to have so many Builders on our island and just like they generously did for Aurora's Play By The Bay they have all volunteered to build the new exterior of the TI Civic Center.

Create a lasting memory of your family or grandchildren names. Pavers are 4" x 7" x 1.5" 2-3 lines 12 characters per line (space counts as a character). Order now because space is limited \$200.00 donation per paver. You will receive a frameable 8x10 paver certificate.

Please make check out to Townsends Inlet Improvement Association/paver include your inscription, phone number and address mail to TI Civic Center Engraved Pavers P. O.

Box 111 Sea Isle City, New Jersey 08243. For more info call 263-3002 or visit

[WWW.SENAWORLD.ORG](http://WWW.SENAWORLD.ORG)

Roger Fehrle of Herman Fehrle Sons Masonry has graciously offered to donate his time

to professionally install the engraved pavers in front of the Center.

Picture: Holding the picture of the TI Civic Centers 125 anniversary facade are TIIA secretary Irene Bukowski, Floss Diamond and TIIA President Louise Clemente.

The community is showing its appreciation for the TI Civic Center, This landmark which has served the community for over a hundred years by helping to make the new exterior a reality and ensuring it continues to benefit the community for future generations.
