

SICTA Alert – October 22, 2007

Important Information Meeting At a recent Council meeting, it was announced that **Jersey Central Power & Light** will provide a project update on the remediation of the former Sea Isle City manufactured gas plant site, located at 39th and Central. The session will provide information on site materials, areas affected, safety issues, what has been done to date, and future activities. **The meeting is scheduled for this Saturday, October 27th, from 2PM-5PM in the Community Lodge.** Since this site could play a role in Sea Isle's future, this is a chance to be brought up to date on an important issue. We have posted a copy of JCP&L's handout on our website, which you can access with the following link.

SIC 2008 Budget If you missed SICTA's membership meeting last Saturday, shame on you. The bulk of the session dealt with the upcoming 2008 budget priorities and SICTA's proposals for how our City should approach them. We have posted our slide presentation for your review: <http://www.sicta.org/research/SICTA%20Meeting%202007-10-13%20Budget2.pdf> Do you want to see significant improvements in the town? Do you want to see material tax increases? Do you want to see City services provided significantly cheaper? Please review the presentation and send us your thoughts, if you missed the meeting.
