Federal Beach Replenishment for Sea Isle City is progressing. Our understanding is that Congress will include us in their "**Water Resource Development Act**", when they return from recess. Separately, the Army Corps of Engineers is expected to release their report this year. If both of these happen as expected, it will be a very successful year, having overcome two of the big hurdles before us. Next year, we will need to begin the next step in the process, which is to obtain funding for our project. See the SICTA News & Research section at: www.sicta.org for pictures of what sand replenishment did for Ocean City and imagine how much nicer Sea Isle City could look.
